) Well-known member Are you saying that you can make a 1.0 mp4 out of a 1.1 mp4 without losing quality or quality at all? I don't think that the AVC encoder can do that. You can encode a 1.1 MP4 to 1.1 MP4 at a lower bitrate (higher quality) or a 1.0 MP4 to 1.1 MP4 but the encoder would still lose quality. I have been trying for a while now to make an attempt to better understand the things that we are working on here in Gaia. I have done a lot of reading on the Gaia project to get a better understanding of what we are doing and what Gaia is about, but have always felt that there is more that i need to understand and i am sure that many people will have the same questions. 1. What is a mathematical model? How does Gaia use it? 2. What is a Gaian Planetsystem? What is the difference between a planet system and a Gaian system? 3. Can we make a Gaia model, using mathematical models, to simulate a planetsystem? 4. Where are Gaia models used? How can we best apply them? 5. Why was Gaian systems made in the first place? 6. Why have they been applied to Gaia? 7. How can we best use them? 8. Why have a lot of people been interested in mathematical models? If you have any answers or comments i would love to hear them I have asked this question to Gaia Earthcore aswell as Atlantis Forum. Hopefully it will not be an offence to you guys, but i am really struggling to find out a lot of things here.Q: How to update a post's permalink I'm trying to do a shortcode to update the permalink of a custom post type. I'm using this: function my_custom_shortcode(\$atts) { global \$wpdb; \$post_id = \$wpdb->get_var(\$wpdb->prepare("SELECT ID FROM \$wpdb->posts WHERE post_type = 'my_post_type' AND post_status = 'publish' AND post_title = 'my_post_title' ", \$post
