May 20, 2017 - This is version 3.9.7 ported & tested on Delphi 10.2 Tokyo. ... The following is VCLZip 4.5.1 (updated and tested) for Tokyo 10.2. I think nothing is impossible for Delphi. I think it just needs a bit more time. If you are using Delphi 10.2 Tokyo, then everything is fine. Do you have access to the Internet? If you're using Delphi 10.2 and can't download the zip file, you can try installing the latest version of VCLZip from here. I think in your case this might be the solution to the problem. But it will still be better if you are careful to install the program correctly fffad4f19a
